

Cannon Brothers Medical and Dental Mission Mar. 1

The Cannon Brothers and friends are up to it again as they head down to the Rio San Juan for their annual mission in early March. Dr. Dan Cannon and wife, Dr. Heydin Otero, will be heading the medical side accompanied by several physicians from MINSA and nurse Dawn Buck and paramedic Eric Bopes.

The Dental side will be manned by Dr. Chris and Matt Cannon. Helping them will be Dr. Israel Montayne, Dr. Francis Barreto, Dr. Jose Carlos Gutierrez and a great support staff including two fourth-year dental students from Boston University Dental School.

We will be setting up shop in Buena Vista, a remote village about an hour from Boca de Sabalos and a frequent stop for San Juan Rio Relief missions. Setting up in Buena Vista will allow local residents to get some much needed help, as well as people traveling from the outlying villages. These communities receive little or no healthcare due to their remoteness
